An order has been issued by the Grand Lodge and Grand Chapter of England for all Freemasons Lodges and Chapters to be in mourning for six months, in memory of the late Lord Curzon, who died on the 26th ult.

The Straits Times states that H. M. S. Porpoise is expected on the China Station from the West Coast of Africa to replace H. M. S. Matine, which has been ordered to England. The Porpoise is a vessel of the same class and armament as the Matine.

To-morrow morning, between 9 and 10.30 o'clock, the steam launch carrying the British flag will call at the wharf of the British Consulate, to convey some visitors to the 1st of August service at St. Peter's (Roman) Church, returning about 12.30.

A telegram has been received at Singapore by the local secretary of the Red Australian Syndicate that the boxes of specimens sent to Australia by Mr. Bailey crashed 31 ounces of gold to the ton. These samples were of course sent to the leaders, and the result given must not be taken to imply more than it states.

At the Harbour Office yesterday morning, before Mr. H. Murray, Harbourmaster, thirteen letters from the British Consulate, Algonza, Capt. J. George, were charged with refusal of duty on the 7th inst. The men pleaded the opinion of going on board again to "take a look" at the ship for six weeks, and they decided to do so.

Mr. F. C. White, Collector and Magistrate at Jelapa, met his death on Sunday, the 27th July, by a dreadful accident. A correspondent writing to our Singapore contemporaries, says that Mr. White, being a keen sportsman, had during his short residence at Jelapa organized a small pack of dogs for the purpose of hunting pig and deer, and he was out with this pack on Sunday morning. He was accompanied by a Malay and a Chinese, and after a short while the dogs brought a wild pig to bay. Mr. White rushed to the spot in order to stab the pig before it could harm the dogs. A young Sikh also rushed forward at the same time, and in the excitement of the moment, it seems that he fired in the direction of the pig. The bullet lodged in the chest of Mr. White, passing through the apex of the heart, and death was instantaneous.

On the division on the second reading of the Bill for the session of Hong Kong in the House of Commons the division numbers were 208 ayes and 461 noes.

The notorious murderer and burglar, Li Pi Tze, whose name has been applied for some four weeks ago by the Chinese Government, was handed over to the Chinese Authorities yesterday afternoon. H.M.S. Dolphin returned to Singapore on the 25th ult. from a cruise to Christmas and Ocos Islands, having been absent a month, including a week's detention for repairs at Tanjung Pagar. On the way she was called to Labuan, where an endeavour would be made to recover the Hanchuan's stolen plates, and also to look at the particular spot where danger befell the Hanchuan.

New orders regarding the coming of foreign men-of-war at Singapore have been issued, and modify to a certain extent the restrictions upon the arrival of such vessels. These vessels proceed as before to the outer anchorage, and the Port Officer will issue permits under ordinary circumstances, to call at the wharves. The vessels will be required to anchor at the wharves with the proviso that no more than one such vessel shall be in the harbour at the same time.

The Police correspondent of the N. O. Daily News writes:—Four young men from the Victoria were lying in wait for a boat on a narrow strip of the water carried away from their clothes and they were shot off by the flood from returning to their temple. These men were being chased by a boat carrying a flood of water in a state of natural simplicity, protected from the wind by a huge boulder. They reached home about six o'clock the next morning, greatly exhausted, and all of them being badly hurt. All the temples, and many of the houses, have fallen in, or are, and many are unsafe. Most of the country people are refugees. Hundred of houses and walls are in ruins. The water is about 10 feet deep in many places, and many of the streets are impassable, the water being on a level with the highest part of the streets, making it an easy matter for travellers (as you may see) to cross the water from one side into the water-covered openings of the houses, which is not a pleasant episode, even when on horseback.
